

# Support for Inclusive Education by National Centers for Learning and Consulting

Statped, Norway  
Marit Solvoll and Siv Hillesøy

# The Norwegian chain of services in special needs education

# «Inclusion is worth it»

Statped's mission statement 2017-2022

«Statped's social mandate is to contribute so that children, youth and adults with special education needs in the best possible way can master their own lives and participate actively in education, work and society».

As part of the education sector in Norway, Statped shall contribute so that children, youth and adults with special education needs in the best possible way can master their own lives and participate actively in education, work and society

(Statped's mission statement 2017-2022)

# Statped: Mission statement 2017-2022

Being included is about participating in the school's learning community together with all the other pupils. This means that each pupil experiences a sense of social belonging and community with others of their own age, while teaching is tailored to ability and need so that the pupil learns and develops both as a person and educationally. (Centre for learning environment)

# Statped's objectives

## Objective 1

- Kindergarten and school owners receive targeted special education services

## Objective 2

- Kindergarten and school owners have staff with knowledge and competence who promote development and inclusion

## Objective 3

- The education sector has access to research and experience-based knowledge within the field of special education

## **Statped's six core areas**

- Visual impairment
- Hearing impairment
- Dual visual and hearing impairment and deaf blindness
- Complex learning disabilities
- Speech and language impairment
- Acquired brain injury

## **Statped's special functions**

- Sami speaking children, youth and adults with special education needs
- Sign language
- Augmentative and alternative communication (AAC)

## Nasjonal nettverkskonferanse for ledere i pedagogisk-psykologisk tjeneste

14.–15. mai i Oslo. Årets tema: "På lag med barn og unge"

### Digital didaktikk og inkludering

Statped utvikler en ny e-læringsstudie

### Statpedkonferansen 2019
